POSTAL REGULATORY
COMMISSION
U.S. DEPARTMENT OF COMMERCE

RE: Postal Regulatory Commission v. De Joy proposal

Dear Sir / Madam:

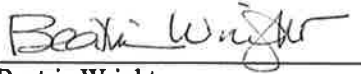

I am supporting the Commission in its position against Mr. De Joy's proposal to:

- 1) Shut down post offices in rural areas. The U. S. Post Office delivers medical supplies / medication, and other necessities, to communities in rural areas. Mr. De Joy's proposal also disregards the fact that many people are moving away from large cities and are relocating to outlying areas.
- 2) Shorten work hours. Shorter work hours for postal workers will result in slower delivery. The current service is mediocre — at best — and we cannot blame our mail carriers or warehouse workers for this. Mr. DeJoy has systematically diminished their ability to provide competent service.
- 3) Eliminate the use of airplanes to deliver mail. Airplanes are essential, as they transport mail across the country and around the globe. This radical change will take us back 100 years. Seriously?
- 4) The privatization of the U.S. Postal Service. Privatization would result in price wars and remove consensus and stability in the Post Office. It is obvious that Mr. De Joy and his cohorts want to take control of the postal service, and be accountable to no one. This is part of a nationwide attempt to derail future elections as well.

And, as an added request:

If it is within your power to remove Mr. De Joy from his position as Postmaster, please do so. Louis De Joy has shown that he does not care about the U.S. Postal Service, its employees, or the people they serve: We, the People.

Sincerely,

Beatriz Wright
